AIRLINE TRANSPORT PILOT'S LICENSE

MODULAR CLASSROOM/ONLINE

This course is aimed at candidates with a Private Pilot License (PPL) or Commercial Pilot (CPL) who wish to progress in their aeronautical career and aspire to be **Commanders of Airline Passenger Transport (ATPL)** or pilots with an ICAO license who wish to obtain EASA license.

REQUIREMENTS

- ▶ Class 1 Aeronautical Medical Certificate.
- ▶ Be at least 18 years old.
- ▶ Be the holder of a PPL(A) license issued in accordance with ICAO Annex I or a CPL(A) license.
- ▶ Demonstrate in an entrance test that you have sufficient knowledge of mathematics, physics and English, in order to ensure to a certain extent, the understanding of the theoretical knowledge that will be imparted to you.
- ▶ DNI / Valid passport

OBJECTIVE

To train the Student Pilot who has not received the theoretical knowledge instruction during an integrated course, to the level of theoretical knowledge required for an ATPL (A).

DURATION

The duration of the course will be a minimum of 8 months and will depend on the availability of the student.

GETTING STARTED AND GENERAL CONDITIONS

World Aviation Flight Academy announces different promotions for the start of this course throughout the year for the PRESENTIAL format.

The ONLINE format can be started at any time by establishing a study calendar together with the CTKI or Chief Theoretical Knowledge Instructor.

World Aviation Flight Academy establishes in the Training Manual for this course the theoretical training schedule that, if needed can be modified with prior notice, according to needs or contingencies.

The student-pilot must attend all the theoretical classes scheduled, except only those justified for personal reasons.

World Aviation Flight Academy reserves the right not to present the student-pilot to the exams if it considers that the student-pilot is not empowered to take them. During the course in face-to-face format, the student-pilot will be covered with insurance policies that in each case are in force in accordance with the law, exempting World Aviation Flight Academy from any additional liability.

TRAINING CENTERS

MÁLAGA - COSTA DEL SOL

Malaga-Costa Del Sol International Airport with additional classrooms and training areas in Marbella and Velez-Malaga / La Axarquía.

MADRID - CUATRO VIENTOS

Cuatro Vientos Airport in the Southwest area of the city. Our modern facilities and classrooms offer a pleasant and professional learning environment.

THEORETICAL TRAINING

The course consists of a total of 650 hours of theoretical training distributed among the following subjects:

- ▶ Air law
- ▶ Cell / systems / power plant
- ▶ Instruments & electronics
- ▶ Weight & balance
- ▶ Performance
- ▶ Flight planning and supervision
- ▶ Human actions & limitations
- ▶ Meteorology
- ▶ General navigation
- ▶ Radio navigation
- ▶ Operational procedures
- ▶ Principles of flight
- ▶ VFR Communications
- ▶ IFR Communications

For the classroom presence format, the theoretical training will be undertaken at the World Aviation Flight Academy facilities at any of its bases, where the classrooms & library of the School, the Communications Room and the Flight Simulators are located.

The school also makes it possible to consult an extensive aeronautical bibliography in its library, as well as seminars and audio-visual communication programs to reinforce knowledge.

During the course, all student-pilots will have access to the World Aviation Flight Academy Intranet and the use of virtual learning aids.

THEORETICAL EXAMS

The electronic theoretical knowledge exams for FCL Licenses and Ratings are those established by the Commission's Community Regulations on obtaining flight crew licenses in accordance with the requirements of EASA and AESA for obtaining flight licenses. They may be carried out at the headquarters in Madrid, Barcelona and Palma de Mallorca within the official established calendar.

THE COURSE INCLUDES

- ▶ Theoretical classes.
- ▶ Corporate bag with following teaching materials:
 - ▶ Course program.
 - ▶ Manuals and study material.

THE COURSE DOES NOT INCLUDE

- ▶ Any additional theoretical training that the student-pilot may require for their correct training, during the course.
- ▶ The theoretical exam fees for each of the subjects.

BILINGUAL

World Aviation Flight Academy provides theoretical and practical training in both English and Spanish. The theoretical exams are conducted in English.

OTHER INFORMATION

World Aviation Flight Academy reserves the right to modify the conditions of the course, its duration, the teaching hours as well as the price of the course resulting from any new regulations that may be issued by AESA-State Agency for Aviation Safety or other competent bodies.
