A320 RENEWAL PROGRAM

The A320 Renewal program has been created so that pilots who are just flying can keep their knowledge up to date, as well as renew their licenses and ratings.

This World Aviation Flight Academy program is completely based on FCL.740 (b) (2), and AMC 1 FCL.740 (b), points (a) (b) (c) (d) (e), as per current regulations.

This is a special program for the renewal of the A320 type rating, in specific cases in which the time elapsed since the privileges of the rating were exercised has been of long duration, and therefore a revalidation of the same is no longer an option, however thanks to our A320 Renewal program it is possible to recover it.

The aim is to make it easier for all pilots in the EASA environment to maintain their skills on point to enable them to fly again as soon as the market reactivates and to reactivate lost ratings.

Different factors of each of the profiles of the interested pilots will be analyzed:

- The period that has elapsed since the expiration of the authorization.
- Recent experience.
- Total hours on the type of aircraft or family of the same manufacturer.
- Time elapsed since the date of the last simulator or real flight.

With all this information, we will proceed to design a personalized course in order to renew and recover the qualification that had been lost.

ENTRY REQUIREMENTS

Within the entry requirements, a series of points will have to be verified in accordance with current regulations to validate whether the candidate is suitable or not for the Renewal A320.

- EASA Commercial Pilot License
- ICAO Level 4 English Certificate
- PBN certificate
- Class 1 Medical Certificate
- Recent Flight Experience
- Complexity of the qualification of the current type.

- Have had the A320 type rating on the license at some point.
- Time elapsed since the attributions of the A320 type rating were exercised.
- If it is necessary to carry out a preflight test to assess the candidate's level in a simulator.

STRUCTURE

It is a tailored program for each particular profile, always meeting assessment standards.

The default courses in World Aviation Flight Academy based on each profile are the following:

COURSE A

11 HOURS OF THEORY + 2H A320 FBS + 2H A320 FFS + 1/2H A320FBS (UPRT) A320FFS (ZFT) + 2H A320FFS VERIFICATION

COURSE B

11 HOURS OF THEORY + 3H A320 FBS + 2H A320 FFS + 1/2H A320FBS (UPRT) A320FFS (ZFT) + 2H A320FFS VERIFICATION

COURSE C

11 HORAS DE TEORÍA + 2H A320 FBS + 1/2H A320FBS(UPRT) + 1/2H A320FFS(ZFT) + 2H A320FFS VERIFICACIÓN

Although an attempt will always be made to adjust each pilot to one of the predetermined profiles, each particular case will be studied in detail, each of the programs may require more training sessions, modifying their structure to always comply with the mandatory requirements of the current standards.

ADDITIONAL INFORMATION

Special attention will be paid to the briefings, and de-briefings where the flight profile and the objectives of this session are carefully prepared. All the necessary considerations will be taken by the instructor in accordance to learning objectives and competencies.

TRI / TRE with extensive experience in airlines.

FFS A-A320 Level D in FBS and FFS mode.

We provide all the necessary study materials and content.

PRICING /student

COURSE A | 1 Pilot: €5.335 | 2 Pilots: €3.614

COURSE B | 1 Pilot: €5.885 | 2 Pilots: €4.015

COURSE C | 1 Pilot: €3.905 | 2 Pilots: €2.998
