MULTI CREW COOPERATION PROGRAM

The main objective is to take a course to operate a multi-pilot aircraft in a commercial air transport environment, developing the technical and non-technical aspects, skills and aptitudes to operate a multiple crew aircraft during all phases of an operation under normal conditions, abnormal and emergency.

ENTRY REQUIREMENTS

- EASA commercial pilot licence with IR + ME qualification.

THEORETICAL PHASE

- Structured program in 5 days / 5 hours per day of study load (25 hours).

SIMULATOR PHASE

- 5 simulator sessions

Each session consists of 4 hours of the FFS A320 simulator, for a total of 20 hours, where 10 will be acted as PF and 10 as PM.

ADDITIONAL INFORMATION

Special attention will be paid to briefing and de-briefing where the profile for each flight and the objectives for each session are carefully prepared. All the necessary considerations will be taken by the instructor in accordance with the learning objectives and competencies.

TRI / TRE with extensive experience in airlines.

FFS A-A320 Level D in FBS and FFS mode.

We provide all the necessary study materials and content.
